Aravind Sanjeev

Frontend Engineer

Trivandrum, India | hi@aravindsanjeev.com | Portfolio | GitHub | LinkedIn

PROFILE

Frontend Engineer with 5+ years of software development experience and 10+ delivered projects. Builds responsive, production-ready applications with React, Next.js, TanStack, and TypeScript. Delivers reusable UI systems and CMS-driven experiences for entertainment, sports, and media brands, and most recently led end-to-end MVP development for a sports-booking product.

EXPERIENCE

Technical Lead & Sole MVP Developer (Freelance) Jul 2026 – Oct 2026
The Game Is On – Sports Booking Platform, UK | Remote

- Delivered the MVP as the sole developer: customer and venue-manager apps, an internal admin dashboard, and a public marketing site.
- Enabled players to discover venues, see availability, reserve sports slots, pay securely, and receive accurate booking updates, refunds, and cancellations.
- Enabled venue managers to set up venues and facilities, manage schedules, staff, maintenance, bookings, notifications, and payouts; gave platform administrators oversight across organisations.
- Built the platform with React Native/Expo, React/Vite, Astro, Supabase, and Stripe, owning the architecture, backend, deployments, and release process.

Frontend Engineer 2024 – Jul 2026
UXBERT Labs | Remote

- Built and maintained public-facing React and Next.js experiences for entertainment, sports, and media brands, including UXBERT Website, Riyadh Season, Joy Awards, Saudi Arabian Grand Prix, DZRT, Ring Magazine, and Golden Pen Award.
- Developed reusable, responsive UI components with TypeScript and Tailwind CSS, supporting consistent implementation across multiple client projects.
- Integrated Contentful and Strapi CMS platforms through GraphQL, enabling content-managed pages and data-driven interfaces.
- Implemented interactive experiences and motion with GSAP in collaboration with designers and project stakeholders.

MERN Stack Developer 2023 – 2024
Brototype | Onsite

- Built full-stack applications with React, Next.js, and TypeScript, including HackerConnect, a real-time social platform, and Opine, a content publishing platform.
- Developed practical product features across frontend interfaces, APIs, and data-driven user flows.

React Developer Intern Jun 2022 – Dec 2022
RaftLabs | Remote

- Developed React-based interfaces for PSi, a decision-making app, and Worx Remotely, a remote team-management app; contributed to UI and UX improvements.
- Integrated document-sharing and real-time communication features using third-party APIs.

Freelance Frontend Developer & Technical Writer 2021 – 2022
Independent | Remote

- Developed frontend features for SmartHive, an employee survey tool.
- Created technical documentation for ZeroToHero, focused on web development.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Libraries & Data: TanStack, GSAP, GraphQL, REST APIs
CMS & Tools: Contentful, Strapi, Git, GitHub, Figma, Vercel
AI-Assisted Development: Claude Code, OpenAI Codex, AI coding workflows

EDUCATION & CERTIFICATIONS

B.Tech, Mechanical Engineering | APJ Abdul Kalam Technological University | 2015 – 2019

Claude Code – The Practical Guide (Udemy, 2026) | AI Fluency Framework & Foundations (Anthropic, 2026) | Claude Code in Action (Anthropic, 2026)
